Service Areas: Hamilton, Tipton (G1), Hendricks(G2) and all of Marion (G5,G6,G7)

Since 1997, ADVANCED CHILDREN’S THERAPY has specialized in helping Children and families maximize cognitive, physical, social and emotional development.

ACT’s Therapists live in your community and know the resources available to you and your child. Our therapists live in Hamilton, Hendricks and Marion counties, most are parents and many have had children of their own in first steps, so they understand a parent’s concern for their child.

ACT’s Therapists Empower Families and Children by teaching through play strategies and therapeutic activities that can be used between therapy sessions so that by working together, you and your therapists will ensure that your child reaches his or her highest developmental potential.

ACT’S Therapists are Skilled Experts in Pediatric Development who work with every level of developmental need and every type of diagnosis, including CP, hydrocephalus ,torticollis, autism, Developmental delay, down syndrome, hypertonia, hypotonia, movement & muscular disorders, all syndromes, cleft palate, prematurity, brain injury, feeding/swallowing challenges, g-tube & vent babies.

With over 45 providers we have specialists available to work with your child including:

- ***Feeding Specialists and Feeding Team with 20+ years of experience.***
- ***Speech and Language Pathologists / Specialists with 10-20+ years of experience***
- ***Sensory Integration Specialists with 20+ years of experience***
