Agency Description:

Feeding Friends Children's Feeding Clinic and Therapy Services is a multidisciplinary agency that serves children from birth to age 3 for First Steps and offers private therapy services for children of all ages. We offer physical therapy, occupational therapy, speech therapy, and developmental therapy services. Our therapists have expertise in working with children with fine and gross motor delay, global developmental delays, toe-walking, torticollis, sensory integration dysfunction, feeding and oral motor delays, speech and language concerns, apraxia, Autism Spectrum Disorder, Down Syndrome, prematurity, congenital and neurological disorders, cerebral palsy, and children who are ventilator dependent. We specialize in a variety of therapy techniques such as NDT, orthotic and equipment acquisition, myofascial release, Beckman Oral Motor Techniques, SOS Feeding approaches, food chaining, Therapeutic Listening Program, behavior modification, The Positive Discipline Approach, ASL, Picture Exchange Communication System, and augmentative communication devices. Providers have worked in a variety of settings including First Steps, private clinics, school systems, hospitals, NICU's and developmental pediatric clinics. We provide bi-lingual services for our Spanish speaking clients. We look forward to being a part of your child's team!
