Service Area(s):	<b>All of Marion County, Hamilton, Hendricks, Johnson and Tipton</b>

Kids Only offers an experienced team of therapists serving children from birth through age sixteen. Specialties include motor skill development, communication/language development, feeding, oral-motor, sensory integration, behavioral strategies and play-based activities. Spanish speaking therapists and interpreter services are available.

Our therapists have experience working with the following diagnoses: Delays in Development, Language Delays, Prematurity, Autism, Cerebral Palsy, Down Syndrome, Hearing Impairment, Failure to Thrive, Feeding Difficulties, Torticollis, Spina Bifida, children with high medical needs, and many additional low incidence diagnoses. In addition, Kids Only operates a pediatric outpatient clinic which will enable you to continue therapy after your child exits the First Steps program if additional therapy would be beneficial. Our clinic is well equipped and offers a place where your child can continue to work on skills and abilities that will enable him/her to achieve maximum potential.

We look forward to the opportunity to work with you in developing strategies for success. Learning activities provided by our therapists will be fun and play-based, while focused toward the goals that you have set for your child to achieve. We will support and coach you, as parents/caregivers, to create teachable moments in daily activities.

Please feel free to contact us if you have questions or concerns.
