Pediatric Specialty Associates has been a First Steps Agency for over 15 years. We have over 60 therapist including Speech, Developmental, Physical, and Occupational Therapist. **Our therapists live in your community whether it is Johnson, Hendricks, Marion, or Hamilton and know the resources available for you and your child.** We also have interpreters, social workers, and nutritionists on staff and access to all other services needed. Our staff focuses on up to date training and methods to insure your child gets the best possible outcome. Our focus is on quality therapist and good customer service to the families. We offer bilingual therapist and many of our therapists speak limited Spanish but are also taking Spanish courses offered through PSA. We offer services in the home or in our office which is conveniently located off Binford Avenue. PSA offers feeding classes, handwriting classes, social behavior classes, speech classes, and gross motor classes. Private therapy is also available. We are currently in-network for Anthem/Blue Cross and have a multi-insurance company arrangement with several insurance companies. Our therapists are highly trained in both technique and customer service. Continuing Education is a high priority. We do have some therapists that offer evening and weekend therapy sessions. We have specialists in Feeding, Autism, Speech Impairments, Gross Motor Issues, Sensory Integration, Fine Motor Delays, ABA Therapy, Behavior Issues, Prematurity, Developmental Delays and nutritional expertise. Having been in business for over 15 years, PSA is one of the best choices to offer comprehensive therapy to your child and can offer continued service past
