#### Agency Description

Sycamore Services, Inc has successfully provided services to infants and toddlers for over 60 years. We have worked through the First Steps system since the program's inception and have been a valuable resource for children birth to adult with developmental delays or disabilities and their families in our community. We have over 40 therapist including Speech, Occupational, Physical and Developmental Therapy. We employ therapist with an extensive experience working with a variety of diverse diagnosis/ conditions including but not limited to, CP, Hydrocephalus, Torticollis, Autism, Developmental Delay, Down Syndrome, Prematurity, Feeding and Swallowing challenges, movement and muscle disorders, Behavioral needs, and many more.

Our therapists live in your community and understand the needs and challenges that families meet on a daily basis. Our therapists are able to continue providing services even after your child turns three. Sycamore prides itself in providing our families the highest standard of care.

Our therapists attend both formal and informal workshops as well as ongoing training throughout the year. Therapists continue to educate themselves and improve their abilities to meet the needs of each child. Individual Family Services Plans are based on your child's current developmental needs ... no two therapy plans are the same. Our comprehensive team of therapist will work together to provide the best all around treatment and experience for your family.

Please feel free to contact our office if you have specific questions or just want to talk.

**We are committed to being your provider of choice!**
