Since agencies/networks are able to apply for multiple areas, it seemed more appropriate to keep some areas smaller in terms of the number of children typically served, allowing for some flexibility. Pending state approval and based on service needs, some re-configuration of the service areas as outlined may become necessary in the future. If you have specific questions about child count numbers in a particular zip code, you can contact Debbi Davis at spoe@cibaby.org.

We know that many of you have been anxiously awaiting this information. Hopefully, you find it helpful.
